# Treatment Readiness Checklist for IVF

## VEDANSHA HOSPITAL, NAGPUR

### IVF Treatment Readiness Checklist

Be fully prepared before your consultation. This checklist ensures a smooth and confident start to your IVF journey.

---

## Why Preparation is Important?

Having the right reports and clarity saves time, helps doctors plan better, and improves treatment outcomes.

---

## Medical Reports to Keep Ready

### For Female Partner

- ✓ AMH (Anti-Müllerian Hormone)
- ✓ Hormone Profile (FSH, LH, TSH, Prolactin)
- ✓ Ultrasound Reports
- ✓ Previous treatment records (if any)

### For Male Partner

- ✓ Semen Analysis Report
- ✓ Any past medical reports related to fertility

---

## Health & Lifestyle Preparation

- ✓ Start a balanced fertility diet
  - ✓ Stop smoking and alcohol
  - ✓ Begin prescribed supplements
  - ✓ Maintain proper sleep cycle
  - ✓ Manage stress levels
- 

## Planning Before IVF

- ✓ Financial planning for treatment
  - ✓ Leave planning (if required during cycle)
  - ✓ Emotional readiness as a couple
  - ✓ Understanding basic IVF steps
- 

## Questions You Can Prepare

- What is the success rate in my case?
  - How many cycles might be needed?
  - What precautions should I follow?
- 

## Quick Final Checklist

- ✓ All reports collected
  - ✓ Lifestyle changes started
  - ✓ Doctor consultation booked
  - ✓ Mental and emotional readiness
- 

## You're Not Alone in This Journey

At Vedansha Hospital, we ensure you feel prepared, informed, and supported at every step.
